

Certified Ontological Coaching and Leadership Program

Australia 2019

CERTIFIED ONTOLOGICAL COACHING AND LEADERSHIP PROGRAM

OVERVIEW

The **Certified Ontological Coaching and Leadership Program (COCLP)** is the most in-depth and comprehensive coach training program available in the Asia Pacific region.

The ontological approach is an extraordinarily powerful methodology for effecting real change at the individual, team and organisational level. It is highly effective because it is based on a new practical understanding of the power of language, moods and conversations for behavioural and cultural change. As such, COCLP is relevant to the professional fields of coaching, organisational consulting, management and leadership.

Coaching and leadership is not something that is learned in a few months. Like any profession, it requires a curriculum that gradually builds key competences that are acquired through extensive experience and supervised practice. The Certified Ontological Coaching and Leadership Program is a three-semester program that enables the development of full professional competence.

COCLP commenced in Australia in 1999. More than 300 people have participated in the program, which has been provided in Australia, South Africa, Europe and the USA. Graduates are currently active as coaches, consultants, facilitators and trainers applying the ontological methodology throughout Australia, Asia, South Africa and Europe.

COCLP is designed for those seeking both personal and professional mastery in their lives. Participants are able to integrate major advances in understanding the nature of human existence and co-existence into their personal and professional lives, as the necessary experiential basis for professional coaching. They are able to simultaneously experience significant personal, professional and leadership development, along with the development of substantive coaching competence.

The learning context is highly interactive and experiential. Full advantage is taken of the richness and depth of learning that occurs in face-to-face interactions. This is supplemented by phone conversations and email exchange. Each participant is deeply respected as a learner who brings a diversity of skills and experiences to the course. Full support is provided to ensure that learning opportunities in the program are maximised and individuals can grow and apply their leadership and coaching skills immediately.

INTRODUCING A UNIQUE AND POWERFUL APPROACH TO LEARNING, LEADING AND COACHING

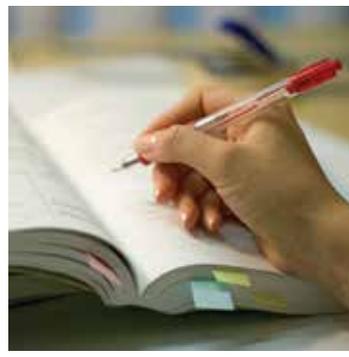

In a world of increasing complexity and uncertainty, generated by what seems like relentless and accelerating change, coping effectively and living a meaningful life have become central issues in our everyday existence. Dealing with these issues requires learning and addressing a critical question: **“What learning is necessary to live and work well?”**

Ontological coaches and leaders are skilful facilitators of profound learning that generates genuine transformation and more powerful and constructive ways of engaging with different aspects of life and work.

Ontology focuses on our **Way of Being**, which is a dynamic interrelationship between three areas of human existence – **language, emotions and body**. Way of Being contains our often deep-seated perceptions and attitudes and is the underlying driver of our behaviour and communication. Ontological Coaching has a holistic orientation that respectfully generates learning in all three areas of language, emotions and body as the catalyst for substantive and sustainable change.

COCLP will assist coaches, leaders and business consultants to develop a uniquely powerful way of observing and working with organisations. An organisation is seen as a network of conversations, relationships and commitments. How well people converse, relate, and manage their commitments, has a major bearing on performance and productivity. Leadership and management effectiveness is fundamentally about conversations and relationships. Shifts in Way of Being, individually and collectively, underpin the enhancement of conversational and relational competence, and are central to improved work practices, cultural change and lasting organisational transformation.

HOW YOU WILL BENEFIT FROM THIS PROGRAM

The distinctions provided in the Certified Ontological Coaching and Leadership Program will enable you to become a more powerful observer of yourself and others. You will acquire a new set of concepts and competences for working with individuals and teams. These will enable you to observe the continuous interrelationship between how people speak, listen and converse with each other, their moods and the language of their bodies. These new ways of observing will enable you to open up possibilities for others which, even though were there before them, they could not see.

On successful completion of the program, you will be able to:

- Coach to a high level of competence across a wide range of personal, professional and organisational issues, and at a deeper level than is available in other coaching programs
- Lead authentically with greater influence and impact
- Facilitate and consult with organisations in ways that result in improved productivity, collaboration and trust
- Greatly increase your ability and capacity for masterful living and action
- Develop more constructive and mutually fulfilling relationships in both your personal and professional life

As a graduate of the program, you will also be eligible to become part of an Australia-wide network of ontological practitioners working as Executive Coaches and Organisational Consultants and experience the benefits of continual professional learning, support and business opportunities.

WHO WILL BENEFIT FROM ATTENDING THIS PROGRAM?

COCLP is highly applicable for:

- Existing and aspiring coaches
- Leaders and managers
- Organisational consultants
- Professionals operating in highly people-focused environments
- Individuals interested in substantive personal development

ICF ACCREDITATION

This program has been granted Accredited Coach Training Program (ACTP) status by the International Coach Federation (ICF).

PROGRAM CONTENT

COCLP is conducted over three progressive levels. By fully engaging in the course, participants will embody key ontological distinctions to substantially enhance their own lives, and apply them with increased competence in coaching conversations.

LEVEL 1: THE LINGUISTIC BASIS OF ONTOLOGICAL COACHING

This level focuses on learning to utilise a new understanding of language in everyday interactions and coaching. Although the primary focus is on language and the application of specific linguistic tools, there is a continual integration with the domains of emotions and body.

At the end of Level 1 you will be able to:

- Understand the conceptual framework and principles of Ontological Coaching
- Apply a different and deeper approach to the role of listening in coaching and leading
- Understand how specific linguistic actions shape reality and how they are used effectively in coaching to shift behaviour in individuals, teams, and organisationally
- Ask powerful questions that shift the client's perspectives, and create new possibilities for living, working and learning
- Utilise powerful conversational strategies for dealing with change
- Apply the ethics of Ontological Coaching to generate deep trust and rapport in coaching conversations and as a leader

LEVEL 2: EMOTIONAL LEARNING AND ONTOLOGICAL COACHING

Humans are much more than rational beings. Equally important, if not more so, we are emotional beings. Neuroscience shows that emotional experiences have a powerful impact on human behaviour and communication. Being able to lead others and coach competently in the emotional sphere is an integral part of being an ontological coach. This requires participants to engage in emotional learning.

At the end of Level 2 you will be able to:

- Understand the pivotal role of moods and emotions for deep and sustainable change
- Recognise, work with and shift the ways moods and emotions impact on communication, behaviour and performance
- Observe and work with the interconnection between basic moods, body posture and language
- Provide people with strategies to manage their moods and emotions
- Ensure you are in the most appropriate emotional frame for coaching and your leadership role
- Understand the connection between emotions, energy and health, their link to coaching and for creating a culture that gets the best results

LEVEL 3: THE PROFESSIONAL PRACTICE OF ONTOLOGICAL COACHING

Level 3 is about consolidating and extending the distinctions and competences learned in the previous two levels. In addition, a deeper practical appreciation of the role of the body in Ontological Coaching is developed, along with the application of an ontological framework for working in organisations as a coach, leader or consultant.

At the end of Level 3 you will be able to:

- Coach effectively in all three areas of language, emotions and body
- Effectively apply the ontological framework to generate organisational improvement and cultural change
- Engage in effective self coaching to generate learning and change
- Build your identity as an ontological practitioner and be clear about post-course applications

In addition to participants coaching each other throughout the program, essential practical learning occurs in this level through coaching conversations with people outside the course and facilitating culture and leadership development workshops outside the course. Participants report on these experiences and their clients submit evaluation forms to course leaders/mentor coaches.

PROGRAM STRUCTURE

Full advantage is taken of the richness and depth of learning that occurs in face-to-face interactions. Participant learning and engagement in the 18-month program consists of the following:

- A total of 29 intensive and experiential workshop days with program leaders
- Participation in learning groups conducted on a fortnightly basis
- Individual assignment work
- Participation in at least 55 supervised coaching conversations throughout the program

Each participant will be assigned a Mentor Coach to provide ongoing support, which includes coaching.

An average of 6-8 hours per week is required to engage comprehensively in the course to maximise learning.

ASSESSMENT

There are five main areas of assessment required to complete the program:

- Attendance at national conferences and regional workshops
- Completion of structured assignments
- Learning group participation
- Development and delivery of two public workshops
- Competence in coaching interactions

Whilst participants are encouraged to keep up to date with assignments, it is recognised that commitments outside the program may not always make this possible. The flexible nature of the program means that a suitable time frame for assignment submission can be negotiated whilst ensuring continued progress towards coaching competence.

WHAT OUR GRADUATES SAY ABOUT THE PROGRAM

“After comprehensive research about what’s on offer in the world of coaching, I identified the COCLP as far and away the most advanced coaching course available in this country, if not the world. Ontology is at the cutting edge – a truly transformational approach. If you want to do coach training that is satisfyingly deep and rigorous, this is the course to do.”

Philip Crockford
Principal
Kinectix Pty Ltd, Brisbane

“I couldn’t recommend this course highly enough to anyone who wants to learn and apply a rigorous and in-depth body of knowledge about human behaviour. For coaches, I think it’s unsurpassed in what you will be able to offer clients. For managers, it offers insights that get to the heart of organisational issues and performance, and strategies for dealing with them. And for anyone wanting to learn more about themselves, it’s incredibly powerful.”

Mark Raymond
Senior Marketing Manager
Blake Dawson, Melbourne

“As an Executive Coach in a large Government Department the COCLP has provided me with the capability and expertise to successfully and effectively coach hundreds of senior leaders in the last 6 years. I highly recommend it.”

Sue Harper
Executive Coach
Federal Government Department, Melbourne

“If I’d known about the COCLP before I completed an MBA, I would’ve chosen to do the COCLP first. Why? Because it speaks to the very core of what it is to be human, and without better understanding and observing our own human condition, how can we seek to understand and influence others both in our personal lives and as leaders in organisations. The learning never stops, because the COCLP journey changes the way you learn and observe in everyday life.”

Ben Sheppard
Learning and Development Coordinator
Local Government Authority, Queensland

“The structure of the program has worked extremely well for me. It is an excellent mix of learning by watching excellent role models, learning by studying, discussion and, best of all, teaching the material through audience sessions and the public workshops. By far the best approach that I have yet experienced. I have enjoyed every aspect of the course. I feel supported, encouraged and cared for as a person and this has provided the opportunity to learn and grow in a safe space.”

John McIntosh
Director
McIntosh Consulting, Melbourne
